English 

Gujarati 

Hindi 

PROJECTS

The Wild Oasis

- Hotel cabins management admin panel.
- CRUD bookings and cabins.
- Database integrate.
- Data showcased with charts and tables.
- Created with ReactJS, react router, react query, styled component, supabase.

Ball by ball - Your Cricket partner

- A very useful cricket scoring online web application.
- Provides various buttons to add ball events.
- Suitable for professional and real life usage due to it's features like undo functions and extra runs support.
- Smooth and seamless user experience.
- Reduces 100% of paper work. Best replacement for that.

Modmaze

- Game "among us" role managemen system.
- CRUD mod roles.
- User and Admin roles.
- Created with NextJS, react query, MongoDB, Material UI and Typescript..

Carmela

- Rent various cars models and get details about them.
- API integration.
- Search, filter and explore car models
- Created with NextJS, react query, tailwind css, api integration and other react packages.
